REPLY OF ALLIES TO HUN READY NEXT WEEK

Fate of German Counter Proposals To Be Known By June 12

PADEREWSKI'S HEARD
Turk Delegates Appear As Witnesses Before The Big Four

PARIS, June 5.—The allies' answer to the counter-proposals will be handed to the Germans before June 12, it was learned from an authoritative source today.

The big four today heard Premier Paderewski regarding Upper Silesia, which some of the allied delegates now advocate being retained by Germany instead of being awarded to Poland.

The premier also presented his version of continued fighting between the Poles and Ukrainians after his assurance that hostilities would cease.

The Turkish peace delegates according to an official report today. The exact date has not been fixed.

From the same source it was learned that the Turks will be considered merely as "witnesses," rather than fully accredited plenipotentiaries. This was accepted as indicating the Turks will be given practically no opportunity for discussion of the terms and will have to accept the conditions exactly as drawn up by the allies.

America's part in drawing up the Turkish treaty is expected to be confined largely to an advisory role, although the question of accepting mandates over former Turkish territories probably will figure in the discussions. The question of modification of the German treaty continued to occupy the attention of the big four, as well as the experts of their respective countries. The American experts are standing on the same ground they did at the start of the negotiations. A few days ago it was believed the proposed changes rested largely with Premier Lloyd George, but the British are said to have executed such a complete about-face in favor of the modifications—

which fit in with the original intentions of the Americans—that there is little left for the Americans to do but bring the British and French closer together.

Premier Clemenceau is standing pat against any change in the terms.

The joint report of the American, British, French and Italian experts was expected to be turned over to the big four in time to permit an answer to the German counter proposals this week.

LABOR SECRETARY PREDICTS END OF BOLSHEVISM HERE

AKRON, O., June 5.—Secretary of Labor William B. Wilson expressed his confidence in the near overthrow of Bolshevism forces in America by the forces of the labor element, in an address here Wednesday night. He said labor was receiving the best wages and working under the best possible conditions in this country as compared with the working conditions in the rest of the world.

Congressman Martin L. Davey also spoke.

GERMAN PROVINCES ALONG RHINE JOIN NEW REPUBLICS

The newest republic growing out of the war was set up a few days ago when the German provinces along the Rhine declared their freedom and set up a provisional government. The new republic includes the Rhineland, the Palatinate, Old Nassau, the Rhenish, Hesse and the Palatinate.

SUFFRAGISTS PLAN TO CARRY FIGHT TO STATE ASSEMBLIES

TREATY LEAK CHARGE MAY UNCOVER BAD INSIDE WORK

WASHINGTON, June 5.—Senatorial discussion of the "treaty leak" continued today. Senator Hiram Johnson's insistence upon immediate publication by the state department of the treaty text drew fire around Senator Hitchcock's resolution for an investigation of the Borah-Lodge statement that the treaty is in the hands of New York business interests.

Hitchcock introduced his resolution late yesterday, after a conference with Senator Kellogg, Minn., a Republican, who had prepared a similar resolution on the ground that it might interfere with the Johnson resolution.

If Hitchcock's resolution passes, the committee will be directed to learn who the financial men are that have the treaty, how they got it and what special or particular interest they have in it. The resolution gives the committee the broadest powers of inquiry.

Such an investigation, however, will not be authorized without strong opposition. Some senators do not wish the matter gone into too deeply, because of the possibility that certain men in high positions may be involved who admitted today.

Also he does not oppose the investigation. Senator Borah said today he thinks it unnecessary.

"I think a cablegram to Versailles would save much time," he said. "It probably would disclose how the treaty got out."

Hitchcock, however, is determined that an implication of wrong doing or favoritism on the part of some administration officials shall be disproved by the fullest publicity. He declared today the investigation, if held, will prove conclusively that no one connected with the administration had any hand in favoring big business interests by given them the treaty text while withholding it from the senate.

"Women Will Vote In 1920 Elections," Say Leaders Following 56 to 25 Victory Of Anthony Amendment In The Senate

WASHINGTON, June 5.—Woman suffragists, fresh from their victories in congress, today were planning their campaign before state legislatures to win the right of nation-wide vote before the next presidential election.

Leaders of the women's parties here said it could and would be done. "The women of this country will vote in the 1920 elections," Miss Alice Paul, chairman of the National Women's Party, telegraphed here last night.

Senator Wadsworth, New York, an anti-conceded that ratification of the amendment, which passed the senate late yesterday after a 41 year battle before congress would probably be completed by a sufficient number of states to make it law within a short time.

"Pressure brought to bear on the state legislatures will not be without effect," Wadsworth said. "Other 'antislavery' were hopeful than an alignment between southern and New England states might delay the amendment's ratification."

It was with something of a sigh of relief that congressional leaders today saw the suffrage fight pass to the state legislatures. During the last 41 years suffrage has precipitated many a battle royal in the two houses of congress and the vote yesterday in its passage by the senate, 56 to 25, was the fifth taken in the upper branch. The house has voted even more often on the proposal.

During the last four years the suffrage question has been almost constantly before the senate, while "militants" made life miserable for "antislavery" (Continued On Page Ten)

LEECH MOVES INTO NEW OFFICE ROOMS

Attorney Lloyd S. Leech has moved his law office from the Ricketts building to the Coshocton National Bank building, having leased the two front rooms, just over the room formerly occupied by the Lynde Clothing Co. and occupied during the past few months by the bank. His new quarters are very handsome, the remodeling of the entire building being nearly completed.

Susan B. Anthony Amendment To U. S. Constitution

The Susan B. Anthony amendment to the constitution will be added to the constitution if ratified by the states, reads: Article 1. Section 1. The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex.

Section 2. Congress shall have power, by appropriate legislation, to enforce the provisions of this article.

Secretary Morrison Says Closing Of Immigration Would Solve Problem

WASHINGTON, June 5.—Measures to disassociate organized labor from all anarchist and Bolshevik elements will be taken by the American Federation of Labor at its Atlantic City convention opening June 9. Secretary Frank Morrison said today.

Resolutions stating that there is no place in labor for these radicals and denouncing the recent bomb plot are expected to be offered, Morrison said. "In addition all local unions will be urged to take strict measures to prevent lawless factions from asserting their influence in the work of organized labor," Morrison said. "We will seek to prevent a repetition of the Seattle strike where radicals gained control of the local unions and caused a general strike that was not authorized by one of the international unions."

"Organized labor stands by its right to strike but will insist that its strikes be orderly."

Morrison will press his recommendation before the convention for the closing of immigration, on the ground that lax immigration laws, made possible the recent bomb plots. He left for Atlantic City today to make preparations for the convention.

Assurance has been given that the condition of President Gompers is much improved and that he will be able to preside at all sessions.

Gompers is expected to ask the convention for some action that will urge congress to repeal the wartime prohibition law. He will also speak in approval of the work of the international labor commission which framed the labor provisions of the peace treaty.

JACOB LANE DIES WEDNESDAY AT HIS HOME NEAR OTSEGO

Jacob Lane, 72, died at his home near Otsego, Wednesday morning from a week's illness resulting from the throat.

Mr. Lane was a lifelong resident of Muskingum-co. He was born in Highland-twp, February 5, 1848 and at the age of seven, moved to Rome, where he spent his remaining years in the old Lane homestead. During these years Mr. Lane exerted a strong influence over the community. He was admired by all for his good habits and strong ideals. His most of friends will be grieved to learn of the death of so worthy a citizen. He is survived by the aged wife, one brother, Peter B. Lane, of Otsego, one sister, Mrs. Martha Kirkpatrick, of this city, three daughters, Mrs. O. F. Baker, of Coshocton, Mrs. Leonard Eckleberry, Otsego, and Mrs. Bert Snell, of Birds Run.

Funeral services will be held in the Otsego Baptist church Friday afternoon at one o'clock, central time and interment will be made in the church cemetery.

CHILD BREAKS HER LEFT ARM

Carma Burrell, the seven year old daughter of Mr. and Mrs. C. M. Burrell, west Main-st, accidentally fell and broke her left arm while at play Tuesday. The child was running and fell over a large pipe. The fall resulted in the fracture. Dr. L. C. McCurdy was called to reduce the fracture. An X-ray picture taken by Dr. Edmund Cone revealed a fracture above the elbow joint.

BIRTH NOTE

A baby boy was born to Mr. and Mrs. Ira Smith of Pine-st, Thursday morning.

CAR OF POWDER LETS GO WHEN A LIVE WIRE BREAKS, IGNITING IT

Thousands Gather at Mouth of Tunnel as Bodies are brot out for Identification—Blast Occurred at Wilkesbarre Thursday Morning at 6:40—Deaths in Hospital May Bring Total to 100.

WILKESBARRE, PA., June 5.—Eighty-five men were killed today in an explosion in the Baltimore Tunnel of the Delaware and Hudson Coal Company, near Wilkesbarre.

Every morgue in the city has been pressed into service and thousands of frantic women and children are rushing from one undertaking shop to another in an effort to learn whether their loved ones are among the killed.

Today's accident is one of the worst in the history of the anthracite coal region. The Avondale disaster, in which 108 men lost their lives is the worst.

The explosion was caused by an electric wire which fell into a carload of black powder. There were 16 cars, carrying about 200 men entering the tunnel when the explosion occurred.

Most of the men died as the result of inhaling flames, but many were blown to atoms and others were drowned in a trench of water that ran along the side of the tracks.

Among the identified dead is "Chuck" Connors, a war hero, who returned from France a week ago. Another is John McCloskey, former pitching star of the New York State baseball league. The accident occurred at 6:40 o'clock while the men were on their way to work. The explosion could be heard for miles around. It had been a carload of giant instead of black powder, it would have blown away the greater part of the east end of this city.

By 7 o'clock thousands of people gathered at the head of the tunnel. As the dead were removed they were placed on a side hill. The scene resembled a battle ground. Mothers, wives and children rushed from one body to another and many women fainted when they recognized their loved ones.

Hurry calls were sent to every physician in the city and a stream of speeding motor cars proceeded to the scene. Every coal company rushed ambulances and first aid crews to the tunnel. Many of the victims died immediately after reaching the surface.

The foreman of the tunnel was riding on the fourth car to enter the mine and he escaped without injury. At 11 o'clock, officials announced that the death toll was 85. A check-up at the various morgues showed that many names had been duplicated and thus caused a higher estimate of dead. With many of them injured at the hospitals reported as dying, it appears the list may reach one hundred.

PIQUA MAN IS SUCCESSOR TO PRES. C. B. M'COY

William K. Leonard, of Piqua, was chosen president of the Ohio Manufacturers' Association to fill the unexpired term of the late Clifford B. McCoy at a meeting of the executive committee at Columbus yesterday. Mr. Leonard is a native of Ohio, and of Piqua, is president of the Piqua Hosiery Company and has other manufacturing interests. He has been a member of the Ohio Manufacturers' Association since its organization. For the past four years he has been a vice president of the association and very active in its work. He is married and had two sons in the military service. He was active in all the war work of his community.

Mr. Leonard also succeeds Mr. McCoy as a vice president and director of the National Association of Manufacturers.

NEEDLE IN FOOT.

Mrs. Lloyd North, south Seventh-st, accidentally stepped on a large needle piercing the ball of her foot early Wednesday morning.

Seagulls Die in Oil.

Thousands of dead seagulls soaked with fuel oil strewn the waters of Lynn canal, near the wreck of the steamship Princess Sophia, according to steamship captains arriving at Seattle. When the Princess Sophia was swept on the rocks at Vanderbilt reef her fuel oil tanks burst, releasing the oil, which soon covered the water for a great distance. The gulls swimming in the water were instantly made helpless and soon starved to death.

CATSUP BARREL HELD WHISKEY

COLUMBUS, O., June 5.—The barrel was labeled "Catsup," but when a bottle in it broke at the town American express office the liquid that ran out didn't smell like catsup. Express men investigated. They found a dozen bottles of whiskey packed in the barrel.

STRENGTHENS KIDNEYS— PURIFIES BLOOD

You can't expect weak kidneys to give the body and mind the help they need. Don't let them become diseased. Don't let them become a source of worry and pain. Don't let them become a source of weakness and poverty. Don't let them become a source of trouble and distress. Don't let them become a source of shame and disgrace. Don't let them become a source of ruin and destruction. Don't let them become a source of death.

Do not delay a minute. Go after the cause of your weakness at once and you will find relief. Don't let them become a source of worry and pain. Don't let them become a source of weakness and poverty. As for the schools, there will be little true progress in Russia until the schools are a reality, and not then until they have done the work for a generation, or more probably two generations.

The Russians feel that they could be given freedom and all it implies to Russians—peace, land, food, easy hours of labor, more money, fine houses, and the good things of life monopolized under the czarism by the few. But somehow they have learned that these blessings have not come, or, coming have not lasted. They have found that their freedom is not freedom but only another form of oppression, or at best a gilded cage of iron rule. Perhaps they are beginning to see, what I believe, that they will never be free until they are free to let the people plunged in darkness, to fit themselves to be free.

It is thrilling to see the sense of freedom, to feel the sense of freedom. But as soon as the sense must be won again, and for ourselves. Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tei's Druggists Not to Take a Cent of Anyone's Money Unless Allenhu Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided after years of ceaseless trials that no one can be free from rheumatism until the accumulated impurities commonly called acid and deposits, were dissolved in the joints and muscles and expelled from the system.

With this goal in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others and took out, with what might be called marvellous success. After years of urging he decided to let sufferers everywhere know about his discovery thru the newspapers. William Arnold Drug Co. has been appointed agent for Allenhu in this vicinity with the understanding that they will freely return the purchase money to all who state they received no benefit.

DAYLIGHT SAVINGS IS DENOUNCED IN A SENATE SPEECH

WASHINGTON, June 5.—Declaring the daylight savings law to be an artificial interference with nature and a fraud upon the public, Representative Roscoe C. McCulloch yesterday urged the house committee on interstate and foreign commerce that it be repealed immediately.

The Ohio congressman said that 95 per cent of the people of his state were opposed to the present arrangement. He continued:

"The farmers are for its repeal. They are joined by laborers. By it, the United States has made the public perpetrate a fraud upon itself. Not a minute is saved by it. It gives opportunity merely for the putting into effect of the visionary ideas of impractical men."

BRUSSELS—President Wilson is expected to arrive in Belgium June 10, it was learned today.

LEADING NATION WILL BE HONEST WITH ITS PEOPLE

NEW YORK, June 5.—"The nation that dominates the world is going to be the nation that brings about harmonious relations between capital and labor," Frank A. Vanderlip, financier and economist, declared today in addressing a luncheon of the Merchants' Association of New York.

"I believe the greatest problem in the world today is this adjustment of differences between capital and labor. It has got to be approached with a liberalism and understanding on the part of employers that goes further than anything we have had heretofore."

COLONEL HOUGH IS DISCHARGED

CAMP SHERMAN, O., June 5.—Colonel Benson W. Hough, commander of the 168th infantry, rainbow division, today received his honorable discharge from the army.

Five hundred members of the 224th field artillery were discharged today. The remainder will get their discharges tomorrow.

Captain A. M. Tetler, Chicago, was detained by military authorities for investigation into his conduct as an officer. Authorities would not discuss the nature of the investigation. Tetler for a year has been in command of the base hospital detachment and business manager of the base hospital journal, official hospital publication.

HALLAS PLANS ATHLETIC CLUB

William Hallas, local mat artist, expects to open an athletic club in Coshocton in the near future. An effort is being made to secure suitable rooms for the club, which will open as soon as the rooms are fitted. The work of the club will not be wrestling exclusively but all kinds of gymnastics will be taught. Hallas has long experience in this line of work. He was a member of a large athletic club in Canton, where he lived when he won the amateur championship of the world in the wrestling tournament at Jersey City in 1916.

Hallas meets Bill Elmer of Columbus, who weighs 175 pounds, Thursday night at the Pastime.

ON BUSINESS TRIP
Rev. A. B. Markley, South Seminary, P.O. Box 10, Walbridge, John Kaufman, Franklin, and William Thresh, Washington, left Thursday for Canton on a business trip and expect to return Friday.

PRESCRIPTION WAS WRITTEN 60 YEARS AGO

The True History of Father John's Medicine

One of the interesting places in Lowell, Mass., is the old apothecary shop on Merrimack street, established in 1827. This location is still a drug store, although of course modernized in many departments. The old prescription books, however, have been preserved and form an interesting record covering nearly a century.

Perhaps one of the most interesting books is that of the year 1855. On one of the pages of this book, that dated June 5th, 1855, is written the original prescription for Father John's Medicine. This prescription was compounded for the Reverend Father John O'Brien at the old drug store on that date, and was so successful in treating Father John's ailment, which was a severe cold and throat trouble, that he recommended the medicine to his friends and parishioners. In going to the drug store and calling for the medicine, they

always asked for Father John's Medicine, and in this way the medicine got its name and was advertised.

Father John's Medicine is a safe family medicine for colds, coughs, throat troubles, and as a tonic and body builder, because it does not contain opium, morphine, chloroform, and any other poisonous drugs, or alcohol, but is all pure, wholesome nourishment.

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands, Strong, Vigorous, Keen-Minded, Men and Women

It has been said of Americans that they work their habits overtime.

Many become nervous and inefficient by overwork.

By worry, despondency, social affairs, robbing brain and body of needed rest, excessive use of tobacco, indulgence in strong alcoholic drink—excesses of every kind that burn up the vital powers necessary in these trying times to make both men and women fit to be of help to themselves and others.

It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition, the endurance and the keen mind of those who avoid excesses.

Tiredness, despondency, fear, trembling hands, want of confidence and even cowardliness, are due in a large measure to abused nerves.

People with plenty of red blood corpuscles and strong, healthy nerves have no desire to shirk work and lean on others for guidance and support.

There is hardly a nervous, run-down man or woman in the land who does not have a certain amount of blood in his or her system, but it is so poor and so scanty that it is of little use.

To become strong and ambitious, to feel that work is not drudgery; to have steady nerves, abundance of red blood and power of endurance; to be not only a man but a man now, a man who can do his duty in the most efficient manner every day for seven days—and take them faithfully.

Take two after each meal and one at bedtime and after seven days take one after each meal until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you feel that you are not as strong as you should be, if you do not feel ambitious, if you are not a man now, a man who can do his duty in the most efficient manner every day for seven days—and take them faithfully.

BE SURE.
Be sure the voters want to hear you before you rise to make a speech; alas, the weary people near you don't always tell how bored they feel. The world is full of desolation and broken hearts and ruined homes, because of war and declamation of state remarks and quoted names. Be sure your neighbors like canned singing before you start the graphophone or some one may be moved to fling a brick, a clinker or a stone. Far better is the evening quiet that's undisturbed by crated song, than insurrection, strife or riot kicked up by music mad dened through. Be sure you never are infringing on others' rights, what'er you do; for human happiness is hanging on keeping this same course in view. Be sure your neighbors like your chickens before you turn the sweet things close, or they'll be angry as the dickens, which is another word for abuse. That man is to his sex a credit, this woody world be much adorns whose course the swiftly he may tread if, encroaches on no human corns. Be just to others as you wade along the pathway you pursue, and men will say you are a model, and name their infants after you.

LOCAL WHEAT MEN ATTEND A MEETING AT ZANESVILLE, O.

About fifty representatives of the of the Coshocton County Farm Bureau and their guests the millers and wheat buyers of the county, went to Zanesville by auto Thursday to attend a wheat marketing conference to be held by this section of Ohio in the Zanesville Board of Trade.

Methods of grading and marketing the wheat of this year's crop will be explained by experts from the Ohio State University, State Bureau of Marketing and United States Department of Agriculture. Prominent grain dealers and farmers will also discuss the subject in regard to this fall's marketing problem.

These representatives both millers and farmers will be scheduled at local community meeting in all parts of the county to explain the marketing problems to the county growers of wheat.

ICE FAMINE THREATENED

Continuation of the unseasonably hot weather for any considerable length of time would cause to develop an ice famine in Coshocton and many other Ohio cities, according to J. S. Elliott of the local ice company.

The supply of ice on hand is limited almost entirely to the artificial product stored as surplus during the winter months. Owing to the extremely mild winter little or no ice was harvested in the greater part of Ohio last winter.

The Coshocton plants are working at capacity 24 hours a day and it is found impossible to take care of all the business brought on by the hot wave. Mr. Elliott declares. Only 700 tons of ice are in storage here. This is all the local plant has facilities for storing.

It was pointed out that if a break should occur in the ice plant here that would necessitate several days to repair the city would be on the rocks. Plans are complete for the construction of a storage room to accommodate 2,000 tons of ice at the Fifth-st. plant, but this building will not be ready for use before winter.

At present the Fifth-st. plant is turning out 250,000 blocks of artificial ice daily. This is 50 blocks more than the estimated capacity of the plant at the time it was built. In spite of this increased output the company is turning down orders from neighboring cities for ice in carload lots.

The other artificial ice plant at the Dickens Creamery makes only a sufficient amount of ice to care for the needs of the creamery.

Miss Alonza Barker, of Orsago, was in Coshocton Wednesday.

BILL JAMES ATTEMPTS A COME BACK

NEW YORK, June 5.—Every once in a while someone enthuses over the performance of an old timer, a pitcher or batter or shortstop or something who has come back with a vigor that foreshadows again great worth as a star ball player. Once in a while the thing lasts, as in the case of Larry Doyle or Jack Quinn.

Bill James walked to the center of the infield at Braves Field yesterday and pitched five and a part of the sixth innings against the Dodgers, who despite the clubbing reputation were able to reach the former champion speed ball demon of the National League for only six hits, a solitary run coming home in the ninth inning.

He fanned a couple of opponents. The game already was lost when George Stinches decided to see if James was any good and he evidently proved that he was. The rival National League clubs are at liberty to get all the consolation they can out of a probability that James doubtless will be taking his regular turn now for the Braves.

There is no enthusiasm over James' successful appearance just yet, but turn your memory back to the closing days of the 1914 season, when three pitchers working in regular turn lifted the club from last to first place barely before the season's ending. Recall the world's series of that year when this club won four straight from the Philadelphia Athletics.

James Rudolph and Tyler were the three fingers James took one of those world's series games. Since then he has done nothing, because his arm was injured. He deserves encouragement in his attempt to come back.

DON'T FORGET THE PLACE—COR. SIXTH AND MAIN STS. LOOK FOR THE YELLOW FRONT.

It's Here!

COME—everyone! Open the door and bid Murphy's Oil Soap enter. Dirt, smudgy floors and smirchy furniture all say goodbye when Murphy's Oil Soap says hello. It is that glad and different soap of a hundred uses the entire country calls for. After the first joyful introduction Murphy's Oil Soap is every woman's favorite. Think of it—an oil soap so pure and sudsy that it will not injure the finest fabric—a soap that works wonders with woodens—a soap that cleans, polishes and nourishes the finest woodwork—a soap that is so reasonably priced that it is economy to use it for washing dishes and clothes. Is it any wonder that women folks the country over are demanding this scientifically prepared, truly vegetable soap that looks good and acts better? But greatest of all it will not rob the whitest, smoothest, prettiest hand of its beauty. The hands will not wrinkle and draw and coarsen, if you use Murphy's Oil Soap. But they will grow whiter, softer and prettier. Before this day is done, meet this treat in soaps. Your grocer has it—the genuine—in 1, 2, 5 and 10 pound packages.

The Mission of Swift & Company

Swift & Company has become one of the large businesses of the world through continuing to meet the growing needs of a nation and a world.

Society has a right to ask how the increasing responsibilities and opportunities for usefulness which go with such growth are being used by the men who direct its affairs—and the men have the right to answer:

To promote the production of live stock and perishables and increase the food supply;

To reach more people with more and better meat;

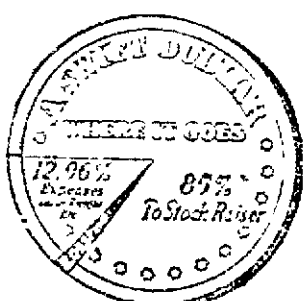

To make a fair competitive profit, in order to reimburse the 25,000 shareholders for the use of their capital, and to provide for the future development of the business;

To reduce to a minimum the costs of preparing and distributing meat and to divide the benefits of efficiency with producer and consumer;

To live and let live, winning greater business only through greater usefulness, with injury to nothing but incompetency, inefficiency, and waste; to deal justly, fairly, and frankly with all mankind.

These are the purposes and motives of the men who direct the policies and practices of Swift & Company.

ACCUSED TEACHER QUIET IN COURT AND IS BOUND OVER IN SUM OF \$10,000

ZANESVILLE, June 5.—Ward S. Bunting was bound over to the common pleas court under a bond of \$10,000 following his arraignment before Judge M. M. Oshe in municipal court at 10 o'clock Wednesday morning. Thru Attorney E. F. O'Neal, the former Zanesville school teacher entered a plea of not guilty to a charge of rape with consent on Hazel Bell Drake, 13, one of his pupils, with whom he eloped to Springfield six weeks ago. He waived preliminary examination and Attorney O'Neal asked the court to furnish a reasonable bond. "In fixing a bond," said Judge Oshe, "I always consider the seriousness of the offense charged. I believe this case warrants a bond of \$10,000." Attorney O'Neal said he did not know whether or not the bond would be furnished. Prosecutor H. W. Kuntz appeared for the state. Bunting did not speak a word in open court, leaving all of the talking to his attorney. He appeared calm and collected as he walked thru the large crowd assembled at police headquarters and when he faced the judge. "Girl In Court" When he entered the court room he did not even glance at the girl, who, with her father and mother, Mr. and Mrs. Isaac Drake, had prominent places in the court room. Neither the girl nor Bunting showed any signs of emotion. There was no indication of disorder at any time. The huge crowd which packed the courtroom and overflowed to the street being composed merely of curious ones, many of whom were women. "I wouldn't say a thing against the girl," Bunting said after he had been placed in the city prison by Chief Arner. "She's the nicest little girl you could find any place."

SELF-PRESERVATION IS IMPULSE THAT ENABLES RUSS SOVIET TO ENDURE

(Following is the third of a series of dispatches from Frank J. Taylor, describing the situation in Russia from personal observation.)

PARIS, June 5.—The Bolsheviks are concentrating every resource of Soviet Russia for military resistance against their outside enemies whose aggression, more than anything else, has enabled Lenin and Trotsky to keep the Russians united under the red flag. Every man of military age is mobilized either for fighting or laboring. According to the best available information the Red Army numbers about 5,000,000. Some authorities believe the Bolsheviks are overmobilized as Russia has always been in previous wars, but using men in the army prevents unemployment while so many factories are at a standstill.

While passing thru various military camps recently, enroute from the front to Moscow, I found soldiers young, satisfied, well clothed, well fed and well paid. Many of them were armed with American rifles and ammunition, sold to the old government. The staffs appeared boyish. I saw no evidence of the old reported cruel discipline, or abused ex-officers forced to labor under threat of death. On the other hand the army resembled a huge group of simple minded, enthusiastic boys playing at war. One while I was awaiting orders from a division staff the bicyclist courier was long in returning. I later learned that the entire staff had deserted their posts to quarrel over the privilege of riding the bicycle around the court yard.

The few intellectuals I encountered in the army, long for normal times, but frankly admitted they would fight under the Bolsheviks rather than permit the White Guards to restore czarism. War enthusiasm runs high among the Russians. As a result of the Bolshevik propaganda they feel they are defending Russia against the outside powers who would destroy the nation and are fighting to save the revolution from treason.

We don't want Nicholas' times again," say the people of all strata who feel there is a better chance of reaching democracy thru Bolshevism than by trusting to the reactionaries. The Bolsheviks are fully confident that no enemy army could reach Moscow, the way are apprehensive regarding Petrograd. Loss of the latter city would be a tremendous blow to them, but they would lighten their responsibility since Petrograd presents a serious food problem.

The supreme council of six which directs Soviet affairs until peace is reached, has placed the entire army under Trotsky who spends all his time traveling from front to front, organizing and building up military resistance. Daily Bolshevik communiques from the various fronts report that Trotsky is inspiring almost a religious fervor among the Russians, the same as they have shown in previous wars.

The Bolshevik leaders are confident they can hold out and prevent their opponents from making any further important advances into Russia until their enemies are sick of war and willing to make a compromise peace. Their biggest present hope is the United States. Reports circulated in Russia

SOLONS EASED MINDS OF WETS

WASHINGTON, June 5.—New York interests were informed last night by members of congress that war time prohibition would take care of itself next July. Adolph Neurath, attorney for New York liquor dealers, told the House Judiciary Committee today. He asserted Senator Simmons had told him "not to worry" about war time prohibition.

SUFFRAGISTS

(Continued From Page One)

and used every means possible to urge on the "progs."

President Wilson has several times recommended passage of the amendment in messages to congress making a strong special effort before the senate in the last session without avail.

Suffrage orders today sent word to state workers and special representatives in many states the words "not buy."

Legislatures are in session in Pennsylvania, Illinois, Massachusetts and Wisconsin. The Ohio legislature meets Tuesday and will ratify the amendment before adjourning. Representative Froehner, a member who was in Washington when the vote was cast, predicted today.

In states where regular sessions will not be had within a short time, efforts are being made to have special sessions called for the specific purpose of ratifying suffrage sentences said. Special sessions already are in prospect, they are expected in Michigan, Texas, Georgia and Alabama.

NEW YORK "I'm crazy with the heat and haven't got a 'thin dime,'" remarked John Walner after \$7.50 worth of taxable. Brought for observation and release.

TO DARKEN HAIR APPLY SAGE TEA

Look Young, Bring Back Its Natural Color, Gloss and Attractiveness.

When a garden sage brewed into a tea with sulphur added will turn gray, streaked and faded hair into shiny dark and luxuriant. Just a few drops will prove a revelation if your hair is falling, streaked or gray. Mix the Sage Tea and Sulphur Compound at home, the is trouble-free. An easier way is to get a bottle of Walner's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

When a gray, faded hair is not only a disfigurement but a source of constant annoyance and attractiveness. By darkening your hair with Walner's Sage and Sulphur Compound, no one can tell because it does it so naturally so evenly. You just dampen a sponge or soft brush with it and draw this thru your hair, taking one strand at a time, by morning the gray hairs have disappeared, and your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to Flush Kidneys and neutralize irritating acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse, again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with fluid extract of cathartics. Thousands of folks who are subject to urinary disorders caused by uric acid irritation find Jad Salts is a pleasant, effective remedy.

Here you have a pleasant, effective cathartic water drink, which quickly relieves bladder trouble.

Signs of Mourning.
 In Italy the women wear white garments to show their grief, and the men clothes of brown hue. In China white is used for mourning by both sexes. In Turkey, Syria, Cappadocia and Armenia celestial blue is the usual tint. In Egypt yellowish brown, the hue of the dead leaf, is deemed proper; and in Ethiopia the natives wear gray as the emblem of mourning.

WATCHING THE SCOREBOARD
 Yesterday's Hero—Earl Hamilton. He held the Cubs scoreless and then in the tenth busted out the hit that sent the Pirates winning run across. This thing of two homers in one game, is catching. Ping Bodie started and then along came George Sisler with a similar stunt. Yesterday Bob Roth pulled it, but the Athletics lost ten to 7.

Red Sox pulled themselves together and defeated the Senators 5 to 3. Braves were well trampled in the first contest by the Dodgers, but were successful in the second 5 to 3. The Reds tripped over good pitching and the Cards won 4 to 2.

Great Painter's Sad Fate.
 Titian, the Italian painter, died at the age of ninety-two, a victim to a malignant pestilence which was raging in Italy. He carried up to the last and it is said that his eye and hand were still his obedient servants. When he was aged thirty-six we read of Titian still receiving royal visitors and superintending the labors of his pupils. He was at work on his last picture, "The Christ of Pity" when he was struck by the plague. This work was finished by another. There is no record that Titian lived by any rules of health; he just happened to be blessed with a strong constitution, that was all.
